

So, you want to offer video conferencing as a service?

Follow these steps
to launch your own.

BUILD EVERYTHING YOURSELF FROM SCRATCH

Hire software developers for
integration and UX

Implement multi-vendor and
multi-tenancy platform

Implement service ordering and
activation tools

Set up multiple points-of-presence
to ensure coverage

Set-up MPLS backbone for
inter-PoP traffic

Secure service failover and
redundancy mechanisms

Develop monitoring, support and
analytics tools

Establish 24/7 Video NOC

Productize service offering from scratch

Implement telco-style billing

Develop marketing collateral from scratch

Create sales and technical training
programs from scratch
